The work in drawing of the Elementary Course or the equivalent; Flowers, leaves or fruit from the cast or models in relief, in crayon, India ink or color; foliage, tree trunks, etc., from nature; Oil paintings from the flat, not including figures; Oil paintings from landscapes, flowers, still life, etc., from nature; Charcoal Drawings; Crayon Work; Pastel Studies; Use and qualities of colors, technical terms, etc., on which an examination will be given each half-term.

#### SENIOR YEAR.

Fragments of the human figure, from the cast, in black and white; Perspective; Drawing from nature; History of Art, theory of color, technical terms, etc., on which an examination will be given each half-term; Landscapes, still life, flowers and animals, to be painted in oil from nature, also figures; Decorative painting.

Students may enter at any time and take such branches of art as they may choose—crayon, oil, pastel, china painting, water color, or decorative painting. A class in out-doors ketching will be formed in the fall and spring terms. Every student taking the Senior course must present one essay of at least 500 words, on some subject relating to the fine arts. These will be retained by the school. Easels and numerous other conveniences are provided by the school. A large and varied assortment of studies is provided for the use of the students free. *Visitors will not be admitted to the studio during class hours.*

During Commencement week, a public exhibition of the work of the students will be given, at which time the work of those taking the regular course will be examined.

## Course in Music.

The elementary principles of Vocal Music are taught as one of the regular branches of the Elementary course. Students who wish to take lessons in Instrumental or Vocal Music, or to take a complete and thorough course in any department of Musical Instruction, avail themselves of the excellent advantages offered by the *Normal School of Music*.

## Final Examinations and Diplomas.

### Rules for Admission to the Junior and Senior Classes in the Elementary Course.

1. Admission to the Senior and Junior classes shall be determined by the State Board of Examiners at the annual examination by the Board.
2. In order to be admitted to the Junior class at any State Normal School, persons must be examined in the six Preparatory branches named and no others; and the examinations in these branches shall be final. Those who for any reason were unable to complete the Preparatory examination, may be admitted to both the Preparatory and the Junior examinations at the end of the Junior year. But they must be classed as Preparatory students till the final examination in the Preparatory branches has been completed. No substitutions or conditions shall be allowed for any of the studies required for admission to the Junior class.
3. In order to be admitted to the Senior class, persons must be examined in all the Junior studies, except Methods and Latin, and the examination in these branches shall be final. No substitutions or conditions shall be allowed for any of the studies required for admission to the Senior class.

4. If the faculty of any State Normal School, or the State Board of Examiners, decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examination at any other State Normal School during the same school year.

5. If a person who has completed the Preparatory or the Junior studies at any State Normal School, desires to enter another State Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the School which the person desires to attend. Except for the reason here stated, no certificate setting forth the fact of the passing of the<sup>s</sup> Preparatory or the Junior studies shall be issued.

6. Candidates for graduation shall be examined in all the branches of the Senior year. They shall have the opportunity of being examined in any of the higher branches, including vocal and instrumental music and double entry book-keeping; and all studies completed by them shall be named in their certificate.

7. Persons who have been graduated in any course may be examined at any State examination in any branches of a higher course, and the Secretary of the Board of Examiners shall certify, on the back of their diplomas, to the passing of the branches completed at said examination.

8. A certificate setting forth the proficiency of all the applicants in all the studies in which they desire to be examined by the State Board of Examiners, shall be prepared and signed by the faculty and presented to the Board.

#### **Rules Relating to Certificates and Degrees.**

1. Students who have completed any one of the foregoing courses shall receive a certificate or diploma authorizing them to teach in the public schools of the State two years without examination.

2. Persons who have completed any one of the foregoing courses and have taught two full annual school terms since graduation, shall receive a certificate or diploma, authorizing them to teach in the public

schools of Pennsylvania without further examination, provided that they present to the faculty and Board of Examiners a certificate of good moral character and skill in the Art of Teaching from the Board, or Boards of Directors, by whom they were employed, countersigned by the proper Superintendent.

3. Degrees shall be conferred as follows :

To graduates in the Regular Normal Course, the degree of Bachelor of Elementary Pedagogics (B. E. P.); after two years' successful teaching, the degree of Master of Elementary Pedagogics (M. E. P.)

To graduates in the Scientific Course, the degree of Bachelor of Science (B. S.); after two years' successful teaching, the degree of Master of Elementary Pedagogics (M. E. P.) Graduates of the Scientific Course who have engaged in scientific, literary or professional pursuits, at least three years after graduation, may receive the degree of Master of Science (M. S.)

To graduates in the Advanced Normal Course, the degree of Bachelor of Pedagogics (B. P.); after two years' successful teaching after completing this Course or in the Scientific Course, the degree of Master of Pedagogics (M. P.)

## Departments of Instruction.

The aim of the Normal School is to furnish competent teachers for the public schools of the state. The mental equipment of a teacher consists of (1) knowledge of the subject matter to be taught, (2) knowledge of the laws of mental action, and (3) knowledge of those methods of imparting instruction and of moving the will, which are in most complete harmony with the laws of mental action; this last knowledge may be either theoretical or practical. With the successful teacher it is both.

In this school the student receives his knowledge of subject matter in his daily study and recitations; he acquires an elementary knowl-

The studies indicated in the COLLEGE PREPARATORY COURSE are those which are required of a graduate of the ELEMENTARY COURSE for entrance to College. Other students who enter this course are required to take the common branches and the mathematics of the ELEMENTARY COURSE.

The letter (a) affixed to the name of a study indicates that the study requires more than one term in that Course and that it is completed in the term indicated. The letter (b) affixed to the name of a study indicates that the study requires more than one term, and that the subject is not completed, but requires one more term. The letter (c) affixed to the name of a study indicates that two more terms are required to complete it.

edge of the laws of mental action by the study of Psychology. In order to supply him with a theoretical knowledge of the best methods of imparting instruction and of moving the will, we give regular instruction in Methods and School Economy, and History of Education. Finally, to furnish him, as far as possible, with the needed practical skill, we introduce the Senior to the work of actual teaching in the Model School.

### Department of Pedagogy.

#### PSYCHOLOGY.

Five recitation periods, weekly, of forty-five minutes each, during the fall term (14 weeks), are required of the Senior class for Psychology.

The aim is to present the fundamental principles of the science in a manner so simple that the student can understand them, and in so practical a light that he may see their application in methods.

The work consists of lectures on the nervous system, and special senses; the study of the intellect, the sensibilities, and the will, with their relation to each other; the analysis of the intellect, observing the natural order of development; the special study of the intellectual faculties with their relation to the sensibilities and the will; instinct, reflex action and habit.

#### \*HISTORY OF EDUCATION.

Three recitation periods, weekly, of forty-five minutes each, during the spring term (14 weeks), are required of the Senior class for the History of Education.

The aim is to acquaint the student with the origin and development of the theories and methods which he has adopted, to awaken in him an interest in the personal history, and character of the great educators of the past, and, in general, to give him more intelligence and a deeper interest in matters pertaining to his profession.

The work consists of a study of selections from Compayre's History of Pedagogy and lectures on the History of Education in America.

#### LOGIC.

Two recitation periods, weekly, of forty-five minutes each, for one-half term (7 weeks), are required of the Post Graduate classes for Logic.

The aim is to acquaint the student with the exact use of terms, the classification of propositions, the rules of the syllogism and the different kinds of reasoning.

#### MORAL SCIENCE.

Two recitation periods, weekly, of forty-five minutes each, for one term (14 weeks), are required of the Post Graduate classes for Moral Science.

The aim is to study some of the most prominent theories of different philosophers in regard to the Standard of Ethics, the Psychological basis of these theories, and to consider a rational system of practical Ethics. Instruction is given by lectures.

S. H. ALBRO, Instructor.

#### MODEL SCHOOL.

The Model School consists of pupils from six to sixteen years of age. It is divided

into twelve grades, and embraces Primary, Intermediate, Grammar and Academic studies.

The design of the school is to give our students an opportunity to put into practice the theory and methods of instruction received in the course of professional work.

Twenty-one weeks or more of practice work is required of each Senior, who does his work under the constant direction of the critic teachers of this department. A single term of this practice will do more for a student-teacher than years of school-room work without advice or criticism.

Once each week the student teachers meet with the critic teachers to hear criticisms on their work. Individual criticisms are made and suggestions offered as needed.

Each student-teacher is also appointed critic for a definite period of time. A written report of his observations is then handed to the critic teachers for inspection, and whatever is particularly worthy of note, or subject to criticism, is afterward discussed before the class.

The methods, the language, power of securing and holding attention, discipline, manner, and teaching power, are noted and errors criticised.

Earnest effort is made to impress the fact that a poor disciplinarian cannot succeed in the school-room, and every principle relating to discipline is seriously and carefully discussed. During the year there are Senior class exhibitions of teaching, after which each student has an opportunity to make criticisms or ask advice.

#### METHODS.

Two recitation periods, weekly, of forty-five minutes each, during the year, are required of the Senior class for Methods.

The aim is to discuss the best methods of teaching each of the branches taught in common schools, and to discover the psychological basis of the methods recommended. This course in Methods is designed to be the study of applied Psychology, and, at the same time, a preparation for the duties of the school-room.

Three recitation periods, weekly, of forty-five minutes each, during the whole year are required of the Junior class for Methods and School Economy.

The aim is to furnish students who may teach school before entering the Senior class, with such an empirical knowledge of Methods, and such practical hints in regard to the management of a school, as he is most in need of as a preparation for his work.

W. R. LONGSTREET, Principal of Model School.

### Department of Language.

#### READING.

This department aims to give the student a thorough knowledge of the dictionary and its many uses, including correct pronunciation, and the diacritical marking of words; to enable him to read understandingly, intelligently and with ease, and to teach reading by the best methods.

The books now in use are Harper's Fifth and Sixth Readers, and McGuffey's Fifth Revised.

The plan pursued is to drill upon special selections, requiring students to give them before the class. Students are also required to prepare articles of their own selection, and to present them before the class for criticism.

The powers of imagination and description are encouraged and cultivated by the reproduction in writing of articles read or heard, and by the description of mental pictures produced by reading.

## Outline of work required:

ALPHABET—Vowels—Single, Diphthong. Consonants—Subvocal, Aspirate.  
 ORTHOEPY—Phonetic Analysis, Articulation, Syllabication, Accent, Pronunciation.  
 EXPRESSION AND MODULATION—Quality, Pitch, Force, Time, Inflection, Emphasis.

## ORTHOGRAPHY.

All students are required to make a standing of 90 per cent in the orthography of common words.

This subject is taught by written lessons, combined with oral drill upon the sounds of letters and division of words into syllables.

Merrill's Word and Sentence Book is used in class work, and examinations are given upon the words found in this book, with other words in common use.

## ENGLISH GRAMMAR.

Five recitation periods, weekly, of forty-five minutes each, for one term, are required of the Junior class for English Grammar. Preparatory classes in Grammar are organized for students that are not prepared to enter upon the Junior course in this subject.

In both Junior and Preparatory classes, one recitation weekly is devoted to the study of letter-writing and to practical composition work generally, and at the close of the term, the student is required to hand in a satisfactory essay upon a subject which is assigned by the teacher.

Grammar may be defined as the science of language and the art of expression. It is the aim of this department that neither branch of the subject shall be neglected. All will agree that this study should be made practical, and that ability to speak and write correctly should be the end chiefly sought. Of scarcely less importance, however, is the study considered as a science, inasmuch as practical grammar, or language lessons, rests on the principles of grammar. Besides, as a means of mental discipline, few subjects are so valuable as technical grammar.

Especial attention is given to the following topics: declensions, principal parts of verbs, forms of conjugation, analysis, and the correct use of words in sentences.

H. J. VAN NORMAN, Instructor.

## RHETORIC.

Five recitation periods, weekly, of forty-five minutes each, during one term, are required of the Senior class for Rhetoric.

The subject is taught with a view to its practical use. It is taken up in the following manner: First, Punctuation, at the end of which the student is supposed to be familiar with the important principles. Second, Diction, under which sentences illustrating the right use of words are considered together with their appropriateness for the expression of different kinds of thought. Fourth, rules for the construction of sentences in regard to clearness, emphasis, unity, strength, harmony. Fifth, Figures. Sixth, some of the special properties of style. Seventh, Versification. Eighth, Poetry. After the principles involved in the various styles of composition, essays are required descriptive, narrative, expository, or argumentative, in character.

## ENGLISH LITERATURE.

Five recitation periods, weekly, of forty-five minutes each, during one term, are required of the Senior class for English Literature.

This subject is taught with a view to giving the student a due appreciation of the

best in the history of the language. In the limited period of fourteen weeks only the most important authors of the different epochs are considered, but around these, as far as possible, are grouped the minor writers. The subject is begun with the development of the language from the Anglo-Saxon. The life of an author is studied with the purpose of causing the student to know the man, and through him, his style. In order to become familiar with his style, extracts from different productions are read. Some attention is given to the political condition of the times, to the general condition of the country, and to the leading events of English history. A proportionate amount of time is given to American authors.

ANNIE R. CAMERON, Instructor.

#### LATIN.

##### ELEMENTARY COURSE—Junior Year.

Five recitation periods, of forty-five minutes each, weekly, during two terms, required of Juniors. Outline of work:

Roman method of pronunciation; declension of nouns, pronouns, adjectives, participles; comparison of adjectives, and participles; conjugation of regular verbs and of *sum*, principal rules of syntax of nouns, pronouns and adjectives.

##### ELEMENTARY COURSE.—Senior Year.

Five recitation periods, of forty-five minutes each, weekly, during the year, required of Seniors. Outline of work:

B. Translation of the "Helvetian War" (Commentaries, Book 1, chapters 1-29); Syntax of nouns, pronouns, and adjectives completed; uses of the indicative, imperative, infinitive, and subjunctive modes; conjugation of irregular verbs; English derivatives; the life and times of Cæsar; the Roman legion; geography of Gaul.

A. Honor Section: Students, who have passed (b) in the fall term with distinction and show marked ability in Latin, will be elected members of the Honor Section. The aim will be to read more Latin, and to give the students the power to read intelligently without translating. Translation at sight and hearing will be emphasized. The extra work done will count in the College Preparatory Course.

#### GERMAN.

First Year—Whitney's German Grammar and Reader.

Second Year—Schiller's "Wilhelm Tell;" Goethe's "Hermann and Dorothea."

IRENE CAMPBELL NEWHOUSE, Instructor.

##### POST GRADUATE COURSE.

CÆSAR'S COMMENTARIES:—Four Books. Life and character of Cæsar; the Roman art of war; outline map of Gaul, locating the principal tribes and battle grounds; a careful study of grammatical principles illustrated in the text; drill in sequence of tenses, indirect discourse, formation and derivation of Latin words. Translation at sight and hearing.

CICERO'S ORATIONS:—Four against Cataline, and that for the poet Archias; the life and times of Cicero; typography of Rome; occasion and object of each oration; study of Latin Synonyms.

VIRGIL'S ÆNEID:—Six Books. Virgil's life and position as a poet, epic poetry; poetic construction; figures of speech; prosody; careful study of all mythological and historical references; outline map, showing position and name of the various points visited by Æneas; famous quotations and proverbs from Virgil.

LATIN COMPOSITION:—Allen's Introduction to Latin Composition, first forty lessons;

translating English into Latin illustrating regular constructions and idioms; sentences to be corrected, and copied into a composition book; marking all long vowels.

#### GREEK.

GRAMMAR:—Laws of quantity and accent, rules for euphony, regular declension of nouns, adjectives, participles, and pronouns, formation and composition of adverbs, regular comparison of adjectives, irregular comparison, formation of verb stems, regular conjugation, contract verbs, more common *mi* verbs, thorough drill on the principal parts of irregular verbs, syntax of substantive, adjective, and verb forms, the use of the subjunctive and optative modes.

ANABASIS:—Four Books. Life of Xenophon, history of the period, Greek art of war, geography of the route of the "ten thousand," drill in etymology and syntax.

ILLIAD:—Three Books. Home, the story of the Iliad, Homeric forms and syntax, rules of prosody, hexameter verse, mythology, figures of speech, comparison of Attic and Homeric forms.

GREEK COMPOSITION:—Jones's Exercises in Greek Prose.

Jones's Exercises in Greek Composition, complete; Translating English into Greek, illustrating regular constructions and idioms; sentences to be corrected and copied into a composition book.

G. CLAYTON ROBERTSON, Instructor.

### Department of Mathematics.

#### ARITHMETIC.

In Arithmetic three classes are formed, requiring one, two and three terms, respectively, to complete the subject.

The most advanced class begins at Ratio, the second class at Percentage, and the third class at Fractions.

Special attention is given to some parts of the Arithmetic; for example, Fractions, Denominate Numbers, Measurements, Longitude and Time, Pure Percentage and its various application of Profit and Loss, Commission, Interest, Discount, and Taxes. On the other hand there are some Parts of the Arithmetic, which are seldom or never used after leaving school; as Equation of Payments, Averaging Accounts, Savings Banks Accounts, Alligation, Annuities, Circulating Decimals, and Arbitration of Exchange, which are omitted altogether.

In recitation each topic under discussion is developed by a direct appeal to the reason without reference to any formal rule, while the rule is made use of only as a general deduction drawn from the solution of concrete examples.

H. J. VAN NORMAN, Instructor.

#### ALGEBRA.

The Junior course requires Elementary Algebra complete. All principles are demonstrated and thoroughly discussed. Special attention is given to the following subjects: Factoring, Newton's Binomial Theorem, Square and Cube Root, the Solution of Quadratic Equations, and Proportion.

#### HIGHER ALGEBRA.

Daily recitations for two terms of fourteen weeks each are required to complete this subject.

#### PLANE GEOMETRY.

Plane Geometry is a Senior study, and two terms of fourteen weeks each are required to complete it. The classes have a recitation period of forty-five minutes

each, daily. Special attention is given to the demonstration of original propositions, and the solution of problems.

#### SOLID GEOMETRY.

Solid Geometry is a term study. Recitations occur daily. In Solid Geometry as in Plane, demonstrations and solutions of original propositions and problems are required.

#### PLANE TRIGONOMETRY AND SURVEYING.

Many practical problems involving trigonometrical functions are solved. Demonstrations of the Formulæ are required. The classes are given drill in the applications of Plane Trigonometry to Surveying. The transit and other necessary instruments are explained. Surveys are mapped and areas computed.

J. P. BREIDINGER, Instructor.

### Department of Physical Science.

The course of study in Physical Science has for its aim:

1st. To lead the student to acquire the power and habit of accurate observation of the facts of nature, and the ability to draw from these facts legitimate inferences as to their causes and relations.

2d. To afford training in the expression, orally and written, of the student's conclusions in clear and forcible language.

3d. To relate everything, as far as possible, to the student's former and present experience.

4th. To make the work as elementary as may be, with a view to the student's use of it in teaching.

The subjects constituting the course are as follows:

#### PREPARATORY COURSE.

Physiology—One term.

Geography (Descriptive and Physical)—Two terms.

#### ELEMENTARY COURSE.

Physics—Two terms.

Botany—One term.

#### POST GRADUATE COURSE.

Physics—Two terms.

Chemistry—One term.

Geology—One term.

Astronomy—One term.

Zoology—One term.

The Junior class receives as a part of the course in methods a course of about twelve lessons in Natural History with special reference to classifying the objects with which they may be familiar in the animal, plant, and mineral kingdom.

#### GEOGRAPHY—DESCRIPTIVE AND PHYSICAL.

The particular aim in view in the study of Descriptive Geography, is to fix in the mind such knowledge as the student may already have, and as far as possible, relate such knowledge to his every-day experiences.

The topical method is used in teaching, and the following summary of topics may indicate the ground covered:

1. The form, size, and motions of the earth.

2. Directions, positions, and measurements.
3. Land-masses, continental and insular, with their groupings.
4. Oceanic and inland waters.
5. Political Divisions—comparison with United States.
6. Routes of commerce, communication, and travel.
7. A more thorough and complete study is made of the United States and Pennsylvania.

Physical Geography is restricted to the physical features of the earth, and the animals and plants which live upon its surface.

ELIZA J. BOYCE, Instructor.

#### PHYSICS.

The students of the Senior class study Physics during the fall and winter terms. The course consists of a series of experiments from Gage's Introduction to Physical Science, selected with reference to ease of comprehension, and to illustrating the main principles and practical applications of the science.

These experiments are performed by the teachers, questions asked which lead the student to observe closely the conditions and results, and he is expected to draw his own inferences and state them in his own language. The student is expected to be familiar with the text, and questions and problems are given to test his knowledge. Each student then writes in his note book a description of the experiments, illustrating each by a drawing.

The work of Physics in the Post Graduate course is along the same line but more extended, and the students perform a series of experiments.

#### BOTANY.

Botany is studied by the Junior class during the spring term, about half of the time being devoted to the study of the text book and the remainder to the practical work of describing, analyzing, and preparing specimens for a herbarium. The student is instructed to plant a window garden with several kinds of seeds and study their mode of germination and growth, making in his note book a record of his observations.

Each student prepares a herbarium of at least twenty-five specimens of plants mounted on card board, together with mounted specimens of leaves and stems, illustrating all of the forms of simple and compound leaves and the different kinds of phyllotaxy, in this way he gets an accurate and adequate acquaintance with the plants of the region and a working knowledge of plants in general.

#### ZOOLOGY.

The Scientific class study Zoology during the fall term. The method is, as far as possible, from practical observation. Specimens illustrating the different classes of animals are dissected by the student, their structure examined, and descriptions and drawings made in note books.

The classification and characteristics of the animals are studied and lists made by the students of all the animals with which he is familiar, putting each in its proper place in the classification.

Morphology and the development from the egg are studied in the living specimens, together with the different tissues which go to make up the animal structure.

The doctrine of evolution and the criteria by which we judge animal's rank are studied; the theory of instinct; the voluntary and the automatic movements; the organs with their functions, adaptations, correlations and analogies.

## GEOLOGY.

The students of the Scientific course give one term to the study of Geology.

For this study the school is especially well equipped. Our cabinet contains one of the finest collections arranged to illustrate Lithology and Historical Geology. Besides the study of this the students make frequent excursions in the surrounding region to examine the structure and arrangement of the rocks and to collect specimens for their own cabinets. These they study, classify, label, and arrange in a space set aside for them, thereby acquiring the ability to recognize the kinds of rocks when they come under their observation, and forming a nucleus for a more extensive collection.

The effect of frost in aiding to disintegrate the rock, and of rivers in eroding their banks and depositing detritus and silt, are well illustrated by the rocks and streams in this section, which are visited, examined, and discussed by the students.

## CHEMISTRY.

One term is spent by students of the Scientific and Post Graduate courses in the study of Chemistry, the first half being devoted to chemical theory and the more common elements with their properties, and symbols, and the equations representing their reactions. A sufficient number of selected experiments are performed by the teacher to illustrate the text. The latter half of the term is spent in individual work. The student performs a list of experiments recommended by the Committee of Ten for secondary schools, and writes a description of these, together with the equations representing the chemical reactions, in his note books.

Frequent quizzes and examinations are held to test his ability and accuracy.

## ASTRONOMY.

One term is spent by students of the Scientific and Post-Graduate courses in the study of Astronomy.

The student is expected to acquire a correct notion as to the simpler methods and results of astronomical research. He acquaints himself with the facts as given in the text book and verifies them as far as possible, observing the heavens, noting the positions and movements of the planets, and brighter stars, and tracing the principal constellations. The uses of the telescope and spectroscope are explained and illustrated.

The more important statistics are learned, the theories to account for the origin and structure of the universe, and the laws of *planetary* and *cometary* motions.

I. M. GAYMAN, Instructor.

## Department of History and Civil Government.

## AMERICAN HISTORY, INCLUDING CIVIL GOVERNMENT.

Five recitation periods, weekly, of forty-five minutes each, during a half year (21 weeks), are required of the Junior class for American History and Civics.

The chief object before the teacher is to create in the student a desire for the study of history. The attempt is made through the narration of comparative accounts of different authors, debate, map-drawing, relics, short sketches, etc. Causes and effects are considered. The study of biography is made prominent. Some attention is given to the related events of English History. The subject is taken up in the following natural order: Explorations, colonizations, inter-colonial wars, the revolution, Presidential administrations, civil war, events of later history.

## GENERAL HISTORY.

Five recitation periods, weekly, of forty-five minutes each, during a half-year (21 weeks), are required of the Scientific and Post Graduate classes for the study of General History.

This subject is taken up in much the same manner as is United States History. Under Ancient History a brief account of the following countries is studied: Egypt, Babylonia and Assyria, Phœnicia, Judea, Media and Persia, India, China, Greece and Rome. In connection with the two latter some attention is given to the classic writers together with manners and customs.

The principal facts in Mediæval History are grouped around the rise of the Saracens, the Frankish Kingdom, the Modern Nations, Italy, the Crusades, Moors in Spain, etc.

Under Modern History the leading events of the sixteenth century are clustered around Charles the Fifth of Spain, the rise of the Dutch Republic, the Civil-Religious wars of France, the Tudors in England, etc.

Under the seventeenth century are considered the "Thirty Years' War," the history of France, England under the Stuarts; in the eighteenth century Peter the Great, and Charles the Twelfth of Sweden, the growth of Prussia under Frederick the Great, England under the House of Hanover, the French Revolution; in the nineteenth century the history of the following countries is taken up in order: France, England, Germany, Italy, Turkey, Greece, the Netherlands, Japan.

#### CIVIL GOVERNMENT.

Five recitation periods, weekly, of forty-five minutes each, for half-term (7 weeks), are required of the Preparatory class for Civics. The subject is taken up as a supplement to History of the United States.

The course attempts a thorough analysis of the Constitution of the United States, a comparison between the National government and the government of the states, and of foreign countries, and a discussion of the principles of government, and of the reason for the provisions of the constitution, and of the current events relating to Civics.

ANNIE R. CAMERON, Instructor.

### Department of Physiology and Hygiene, and Gymnastics.

#### PHYSIOLOGY AND HYGIENE.

A finely mounted skeleton, complete, and a valuable manikin from the best French manufactory, have recently been furnished to the school. A complete outline of the work required in this department may be obtained on application to the principal; this includes the study of Bones, Articulations, Muscles, the Vascular, Respiratory, Digestive and Nervous Systems, Elimination, Animal Heat and the Special Senses. In consideration of each of these subjects, special attention is given to the Hygiene of the body.

Special Physiology is given Seniors in Physical Training Department.

#### COURSE IN GYMNASTICS.

The system taught is the Swedish Gymnastics. All students are required to take regular work unless excused on account of some organic disease. Gymnastic work is primarily for the weak, not for those already strong. The work is so adapted as to benefit all and injure none.

Gymnastics has its place in the school curriculum, not only for the improvement and maintenance of the health of the pupils, but also for its distinctive educational effects. The equal development of the cerebral hemispheres, the cultivation of concentrated attention, and of volition and courage, are possible to the teacher of educational gymnastics.

Each day's exercises will consist of introductions, arch flexions, heaving (hanging) movements, balance movements, shoulder blade movements, marching and running,

abdominal exercises, lateral trunk movements, slowing movements, jumping and vaulting, respiratory exercises.

In addition to the practical work in the gymnasium, twenty-one lectures on the theory and method of gymnastic work are required of all members of the Senior class.

All pupils will be obliged to wear clothing suitable for the gymnasium,—divided skirt and loose blouse for the ladies, and a negligee shirt for the men, and rubber soled shoes for all.

A certificate will be required from every pupil from some physician stating whether he or she has any heart trouble or other organic disease.

ANNIE C. SKEELE, Instructor.

## Department of Arts.

### DRAWING.

Five recitation periods, weekly, of forty-five minutes each, for at least twenty-four weeks, are required of the Junior class for drawing.

The course includes outline and shaded drawing of type solids, and original groupings of same; drawings of objects and buildings to illustrate principles taught by solids; working drawings; kindergarten work, including clay modeling, and charts showing examples of paper cutting, folding, and weaving, stick laying, and harmony of color; rules of light and shade; perspective, its principles and practical applications; plans of buildings; groups of geometrical solids and vases in applied perspective, freehand; foliage from nature; methods of teaching drawing; technical terms; blackboard illustrations; designing.

JULIA AUGUSTA SUCESSE, Instructor.

### PENMANSHIP.

The time required of the Preparatory class for Penmanship is not specified. A definite amount of work must be accomplished.

The classes observe the following:

1. A suitable and healthful position of body.
2. A proper method of pen-holding.
3. A movement regular, and as free as is consistent with good form.
4. A neat and business-like arrangement of the matter written.

Due attention is given to proportions, classifications, analysis of letters, etc., and special drill lessons are given in movements, and methods of teaching.

### BOOK-KEEPING.

Five recitation periods, weekly, of forty-five minutes each, for one-half term (7 weeks), are required of the Preparatory class for Book-keeping.

The following is an outline of the work:

Definitions and illustrations.

Forms of accounts.

Debit and credit.

What an account shows.

Closing an account.

Special forms.

Partnership.

Checks, notes, and drafts.

Students are required to present for examination a set of books containing such exercises as the teacher shall designate.

F. M. ALLEN, Instructor.

## VOCAL MUSIC.

The students are required to pass a satisfactory examination in the elementary principles of Vocal Music. This requires a thorough knowledge of all the Scales, Keys, Signatures, Clefs, different kinds of Measures, Notes, Rests, etc. They must be able to write easy exercises in any key, and to transpose any one key into any other key. A knowledge of the Tonic Sol Fa system is also required. Seniors will be required to give instruction in this as in other subjects in the Model School.

H. E. COGSWELL, Instructor.

## Prizes and Honors.

For excellence in scholarship, during the year 1895-96, six prizes are offered, as follows:

1. A prize of \$25, for the student who makes the highest standing in Greek. This prize is limited to students who shall begin Greek this year, and who shall be members of this school for not less than twenty-eight weeks of this year.

2. A prize of \$25 for the student who shall pass the highest examination on the first four books of Xenophon's Anabasis. The examination shall be a special one near the close of the year, and shall be limited to persons who have been members of this school for at least fourteen weeks of this year.

3. A prize of \$25 to the student who makes the highest average standing in all the subjects of the Senior year in the Elementary course. Limited to under graduates.

4. A prize of \$20 to the student who makes the second highest average standing in all the subjects of the Senior year in the Elementary Course. Limited to under graduates.

5. A prize of \$25 to the student who makes the highest average standing in all the subjects of the Junior year in the Elementary course.

6. A prize of \$20 to the student who makes the second highest average standing in all the subjects of the Junior class in the Elementary course.

All these Prizes are offered with the following conditions: (1) there must be in every case at least two competitors; (2) no prize will be awarded except for meritorious work.

The prizes offered last year were awarded as follows:

The prize of \$50 for the student who made the highest standing in Greek, to Maud E. Gates, of Mansfield, Tioga county.

The prize of \$25 for the student who passed the highest examination on the first four books of Xenophon's *Anabasis*, to Raymond H. Lacey, of Laceyville, Wyoming county.

The prize of \$25 to the student who made the highest average standing in all the subjects of the Senior Year in the Elementary Course, to Mary Bates, Knoxville, Tioga county.

The prize of \$20 to the student who made the second highest average standing in all the subjects of the Senior Year in the Elementary Course, to Florence May Stalford, of Wyalusing, Bradford county.

The prize of \$25 to the student who made the highest average standing in all the subjects of the Junior Year in the Elementary Course, to William O. Jenkins, Charleston, Tioga county.

The prize of \$20 to the student who made the second highest average standing in all the subjects of the Junior class in the Elementary Course, to Maud A. Bush, of Westfield, Tioga county. Honorable mention is made of Margaret G. Nash, of Antrim, Tioga county.

The Board of Trustees have authorized the presentation of two gold medals for excellence in oratory and original compositions respectively. These medals are to be awarded annually to the two members of the Senior Class who shall become entitled to them by the decision of three competent judges. The contests for the medal in the class of 1896, were held in Alumni Hall, June 28th and 29th.

The medal for oratory was awarded to Miss Velma M. Potter, of Mansfield, Tioga county.

The medal for original composition was awarded to Mr. James C. Dalton, of Mansfield, Tioga county. Following are the programmes:

## Miscellaneous.

### Library.

A good circulating library, catalogued after the most modern and improved plan, is open daily to all students free of charge. All students have access at any time to a large reference library.

### Reading Room.

One of the large and pleasant corner rooms of the Gymnasium building is used for a reference library and reading room. The room is supplied with cyclopædias and other books of reference, and all the best magazines published in the country, besides many of the best weekly and daily papers. The room is open at stated hours every day of the week.

The Reading Room is furnished and managed by the Reading Room Association, which comprises most of the faculty and students of the entire school.

The Association elects officers on the first Friday of each term. The office of President of the Association for the past year has been filled by Mark C. James, George D. Maxey and Edwin M. Aldrich.

### Apparatus and Cabinet.

The science department is well supplied with the best modern apparatus, which is constantly used by the classes in natural science. The cabinet contains a large collection of Geological and Biological specimens.

### Literary Societies.

There are four literary societies, all in a flourishing condition :

The Athenæan, Normal Literary, Philalethean and the Agonian.

The Athenæan and Normal Literary societies are composed of both ladies and gentlemen. They have finely furnished rooms and good libraries. The Philalethean society is composed of gentlemen, and is a chapter of the Philalethean Fraternity. The Agonian society is composed of ladies, and is a chapter of the Agonian Fraternity.

## PRESIDENTS OF LITERARY SOCIETIES DURING THE PAST YEAR:

Of the Normal Literary Society—

George Maxey, A. T. Harrer, I. M. Gayman.

Of the Athenæan Society—

Raymond H. Lacey, Ray Mitchell, John Morse.

Of the Agonian Society—

Rose L. Baker, Mrs. J. P. Breidinger, Nellie M. Peck.

Of the Philalethean Society—

John J. O'Hara, J. P. Breidinger, Fred J. Wandall.

**Lectures and Entertainments.**

Lecture courses of a high order of excellence are maintained by the literary societies, and by the Y. M. C. A. Many scientific and popular lectures are given with the aid of the stereopticon. Frequent musical entertainments are given by the Music Department, and by the literary societies.

**Religious Associations.**

The Y. M. C. A. and Y. W. C. A. have organizations of the students which maintain weekly religious meetings.

**Athletic Association.**

An Athletic Association of the students has done a great deal to encourage and promote out-door sports. The base ball and foot ball teams of the school have made a fine record during the past year.

**Location, Buildings and Grounds.**

Mansfield is a fine rural village of 2,000 inhabitants, situated on the Tioga division of the Erie railroad, thirty-six miles from Elmira, N. Y. Its citizens are intelligent and enterprising. By special act of the legislature, no intoxicating liquors can be sold, nor billiard tables kept, within a radius of two miles of the Normal School. The students are therefore protected from many temptations, to which they would be exposed in many other localities. The sanitary condition of the village is excellent. The altitude is sufficient for the purest air, the sewage is complete, and pure water is brought from a mountain stream.

The surrounding scenery, of hill, mountain and valley, is attractive. The Normal School buildings present a noble and imposing aspect. The school grounds have an area of ten acres. The lawns about the buildings are beautifully laid out and covered with a great variety of forest trees.

On the 12th of December, 1862, the Mansfield Classical Seminary was accepted by the State, and declared the State Normal School of the Fifth District. The seminary building, accepted by the State, was the main portion of what is now called the

#### SOUTH HALL.

This is a brick structure, one hundred fifty feet in length by fifty feet in width. In this building are the gentlemen's dormitories, the circulating library, chapel, six recitation rooms, and the text-book library. This building, formerly the old seminary, was enlarged and remodeled in 1889. One hundred fifty feet north, and the same distance east, of south hall, stands the

#### NORTH HALL.

This building is now in process of complete reconstruction from foundation to roof. The cut represents it as it will be, when finished, one of the finest school buildings in the country. The walls are of brick, the interior finishing of natural wood. All the material and workmanship are of the very best. The building is two hundred seventy feet long by one hundred feet wide, and five stories high. It contains an elegant dining room, finished in oak, large enough to seat five hundred, the kitchen, bakery, etc., dormitories for the ladies, reception rooms, suits of rooms for the Art Department, and for the Normal School of Music. Two stories of an ell projecting from the northeast corner of the building, and completely removed from the other rooms, are set apart as an infirmary. They are completely furnished with every appliance for the sick. The central part of the building contains an elevator, Principal's office, reception room, office and class room for the Music Department, apartments for Steward and Matron

in front, and dormitories and bathrooms in the rear. The dormitories on every floor of both buildings are supplied with bath-tubs and everything needed for health and comfort. All the buildings are heated by steam and supplied with fire escapes of the best construction. The cost of the north building when completed and finished, will not be less than \$150,000. Midway between the north and the south buildings is

#### ALUMNI HALL.

This is a brick building, fifty-four by one hundred seventeen feet, three stories high. It contains the Model School rooms, recitation rooms, the society rooms, and a concert hall which occupies one entire story. This building was completed in 1886 at a cost of \$25,000. In the rear of the south building stands the

#### GYMNASIUM.

This is a fine structure; it is a frame building, fifty by one hundred thirty feet. It contains a large drill hall, fifty by one hundred feet, and four spacious rooms adjoining, one for library and reading room, one for the military company, one for cabinet specimens, and one for ladies' dressing room. The drill hall is well furnished with apparatus. This building was erected in 1888 at a cost of \$7,000.

#### Expenses.

Tuition in all branches, and board, including fuel, oil, room rent, and ordinary washing, \$63.00 per term, or \$189 per year. No extras. The first payment, \$40.00, to be made on the first day of the term; the second payment, \$23.00, to be made at the middle of the term.

The total expenses for the year are \$189. When students avail themselves of State appropriations (see below), the expenses are reduced for the Junior year to \$168, and for the Senior year to \$118.

Tuition, without board, including all branches above, \$14.00 per term, or \$42 per year. The first payment, \$7.00, to be made the first day of the term; the second payment, \$7.00, to be made the middle of the term.

With a view of discouraging a too prevalent desire to make rapid advancement, which is always inconsistent with good scholarship, tuition will be reduced from \$14.00 to \$7.00 per term to students who are under seventeen years of age, and who take, during the year, only the studies of the Preparatory course; viz. Arithmetic as far as Ratio, Book-keeping, Civil Government, Geography, English Grammar—second term, or (b) class, History of the United States, Reading, Spelling, Writing, Vocal Music.

Deduction will be made to students absent from school two consecutive weeks or more on account of sickness or other satisfactory reasons. No deduction will be made to students entering within the first two weeks, or leaving within the last two weeks of a term. All bills must be settled with the Treasurer.

By an Act of the Legislature, the following appropriations are made by the State to Normal Students and Normal Graduates:

1. Each student over 17 years of age, who shall sign a paper declaring his intention to teach in the Common Schools of the State, shall receive Fifty Cents a week.
2. Each student who, upon graduation, shall sign an agreement to teach in the Common Schools of the State two full school years, shall receive the sum of Fifty Dollars.
3. Any student to secure these benefits must attend the school at least twelve consecutive weeks, and he must receive regular instruction in the science and art of teaching in a special class devoted to that object for the whole time such an allowance is drawn.

Gentlemen's rooms are furnished with heat, light, dressing case with mirror, chairs, tables, stands, pails, bedsteads, mattresses, pillows and one comfortable.

Ladies' rooms are furnished with heat, carpet, couch, or two rockers, chairs, tables, and bedroom set complete, pillows, and one comfortable. Mirror on dressing case.

Students furnish lamps, mirrors, wash-bowls and pitchers, napkins, towels, pillow-slips, sheets and one comfortable. The last five articles enumerated, together with all articles of clothing, should be distinctly marked with full name.

Students have the privilege of renting text-books at a nominal rate.

For two days at the opening and two days at the close of each term, students' baggage is carried to and from the railway station free of charge.

#### TUITION FOR SPECIAL ART STUDIES.

Private lessons in any of the branches, per term of fourteen weeks, one lesson a week . . . . .	\$12.00
Single private lessons . . . . .	1.00
Class lessons of three hours in any of the branches except China painting in Royal Worcester style, with not less than five in the class, per term of fourteen weeks, one lesson a week . . . . .	6.00
Single class lessons . . . . .	50

#### How to Reach Mansfield.

Mansfield is thirty-six miles from Elmira via the Erie railroad; twenty-seven miles from Corning via Fall Brook and Erie railroads; twenty-three miles from Wellsboro via Fall Brook railroad from Wellsboro to Lawrenceville, and thence via Erie railroad, or twelve miles from Wellsboro by stage; sixteen miles from Troy, on the Northern Central railroad, by stage; and ten miles from Blossburg via Erie railroad.

Students coming via Northern Central railroad may take stage at Roaring Branch for Blossburg, thence to Mansfield by railroad, or take stage at Troy direct to Mansfield, or keep the railroad via Elmira. Passengers from the East, by the Erie, change cars at Elmira; by the Lehigh Valley, change at Waverly, thence to Elmira by the Erie; by the D., L. & W., change at Lawrenceville, thence by the Erie to Mansfield. Students coming from the West on the Erie or D., L. & W. railroads, change cars at Corning. Students coming from the West and South by the Fall Brook railroad, change at Lawrenceville.

All baggage should be distinctly marked with the name of the owner, and "STATE NORMAL SCHOOL," to insure its being brought to

the Normal buildings. Whenever baggage is to be taken to the station, it should be marked with the name and destination of the owner.

## Normal School of Music.

---

HAMLIN E. COGSWELL, MUSICAL DIRECTOR,

*With a Full Corps of Instructors.*

---

This school, which constitutes the music department of the State Normal School, aims at the development and cultivation of musical talent in its broadest sense. It is located in the new North Hall, and is amply provided with everything that is needed in a first-class Conservatory, one entire floor of this large building being used by this department.

### Course of Study.

The course of study is similar to that of the leading conservatories of this country and Europe, and is such as will enable students to secure the best results in as short a time as possible. It affords not in music alone, but also in other branches of study, an excellent opportunity for students to secure such intellectual development as will form a substantial basis for future attainments.

### General Outline.

The courses in Pianoforte, Organ, Violin and Voice, are divided into five grades. The first and second are elementary and devoted to the rudiments of music and technical exercises. The third and intermediate grade, for the further development of musical knowledge and technic. The fourth or advanced grade, for a higher degree of intelligence, technic, and interpretation, and the fifth grade, for general musical knowledge necessary for a public performer or good teacher.

The study of other instruments requires the same general course on a less expanded basis. Students in the fourth and fifth grades are required to give at least three or four satisfactory performances of different works in concerts or public recitals.

### Instruction.

All instruction in voice, piano, violin, etc., will be in class or individual private lessons, according to the wish of the student. We, however, strongly recommend students to take class lessons. All lesson periods are forty-five minutes. Only two students are assigned to the same period, and while each receives individual instruction one-half the time, at the same time he has the benefit of the instruction given to the other, which is often of more value to the listener than to the one doing the work. Besides, there is much a teacher has to say in regard to the subject that will call forth thought, and many times a student may ask questions that another had not thought of. In this way much useful information is acquired. This plan is generally followed in all of the leading conservatories with the very best results.

### Entrance.

Students are received in any branch. All save beginners are given an examination and graded according as they are found qualified. If found deficient in any respect, they will be required to make up without delay such theoretical or other studies as are necessary for their admission to the next grade.

### Certificates and Diplomas.

The minimum time of study for one applying for a certificate is one year, i. e., three terms of fourteen weeks each in the chief study, and a satisfactory showing of a general knowledge of music.

Diplomas for graduation will be granted after one year's study, in cases of exceptionally high standing in all the branches required at the time of entering the school, and of satisfactory progress during the year of study. The average amount of time necessary to graduation is from two to four years, according to grade and ability of student upon entering the institution.

### Requirements.

No student will be received under any consideration in any of the classes for less than one term of fourteen weeks, as anything short of that will be charged at private rates. All tuitions must be paid one term in advance. No exception will be made in any case. No allowance will be made for lessons lost during the term by students for any cause whatever, save protracted illness of two weeks or more.

### Free Privileges.

All music students have free access to the music reading room and library, which is supplied with all the leading musical periodicals and books. They are also admitted free of charge to classes in *Musical History*, *Analysis*, *Sight Reading* and *Ensemble*, and to many lectures and recitals, and while there are many advantages offered at a very moderate expense, the high standing of the school is kept up and will compare favorably with the leading conservatories of the country.

### Regulations.

All music students will be required to observe the regulations of the school; such as are calculated to be for the best interests of all.
